Working together, caring for you

A photograph of a medical procedure in an operating room, overlaid with a semi-transparent brown filter and the word "Aim" in white text. The scene shows several medical professionals in blue scrubs and white aprons working around a patient on a table. Large medical equipment, including a C-arm and other imaging devices, is visible in the background. A digital display on the wall shows "00:00:00".

Aim

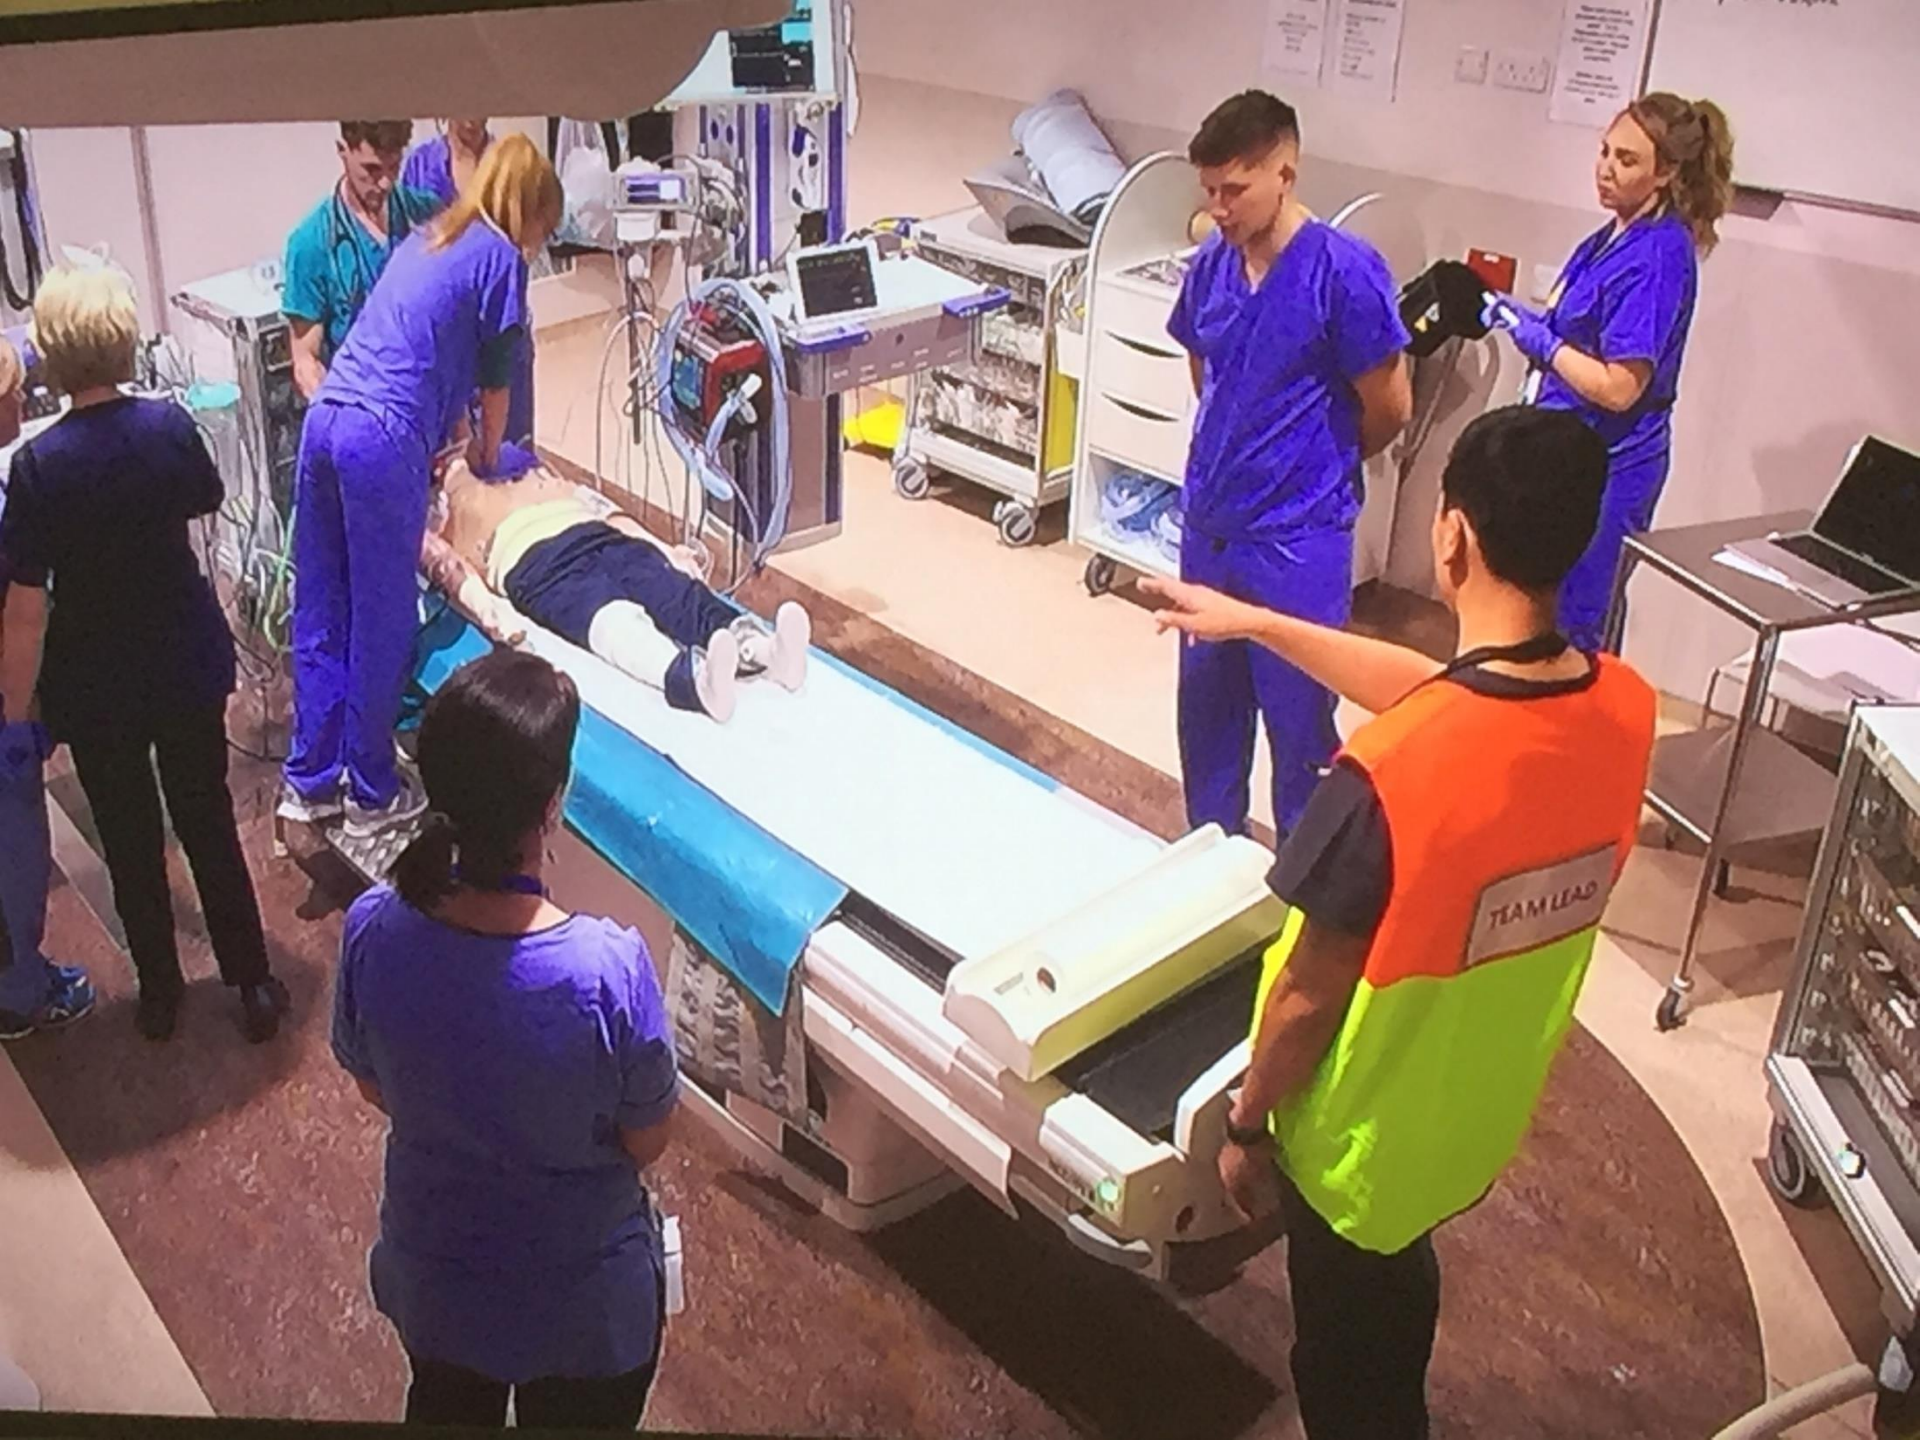

Anaphylaxis in CDU

Complete Heart Block with STEMI

PE with cardiac arrest

Bradycardia with cardiac arrest

The image features the Kahoot! logo in a large, white, rounded font. The logo is centered horizontally and spans across a background that is a stylized world map. The map is divided into four quadrants by a vertical line down the center and a horizontal line across the middle. The top-left quadrant is red, the top-right is blue, the bottom-left is yellow, and the bottom-right is green. The map's landmasses are represented by darker shades of these colors, creating a textured effect.

Kahoot!

Ready to join?

I felt the learning environment was safe

The debriefing discussion was constructive

I would like to participate in future sessions

Review of symptomatic bradycardia

Review of causes of pulseless VT

Review of STEMI management

16 weeks

216 attendees

Nurses – average 6/session

Doctors – 1-2 per session

HCAAs - usually 1 per session

Kahoot

16 weekly sessions

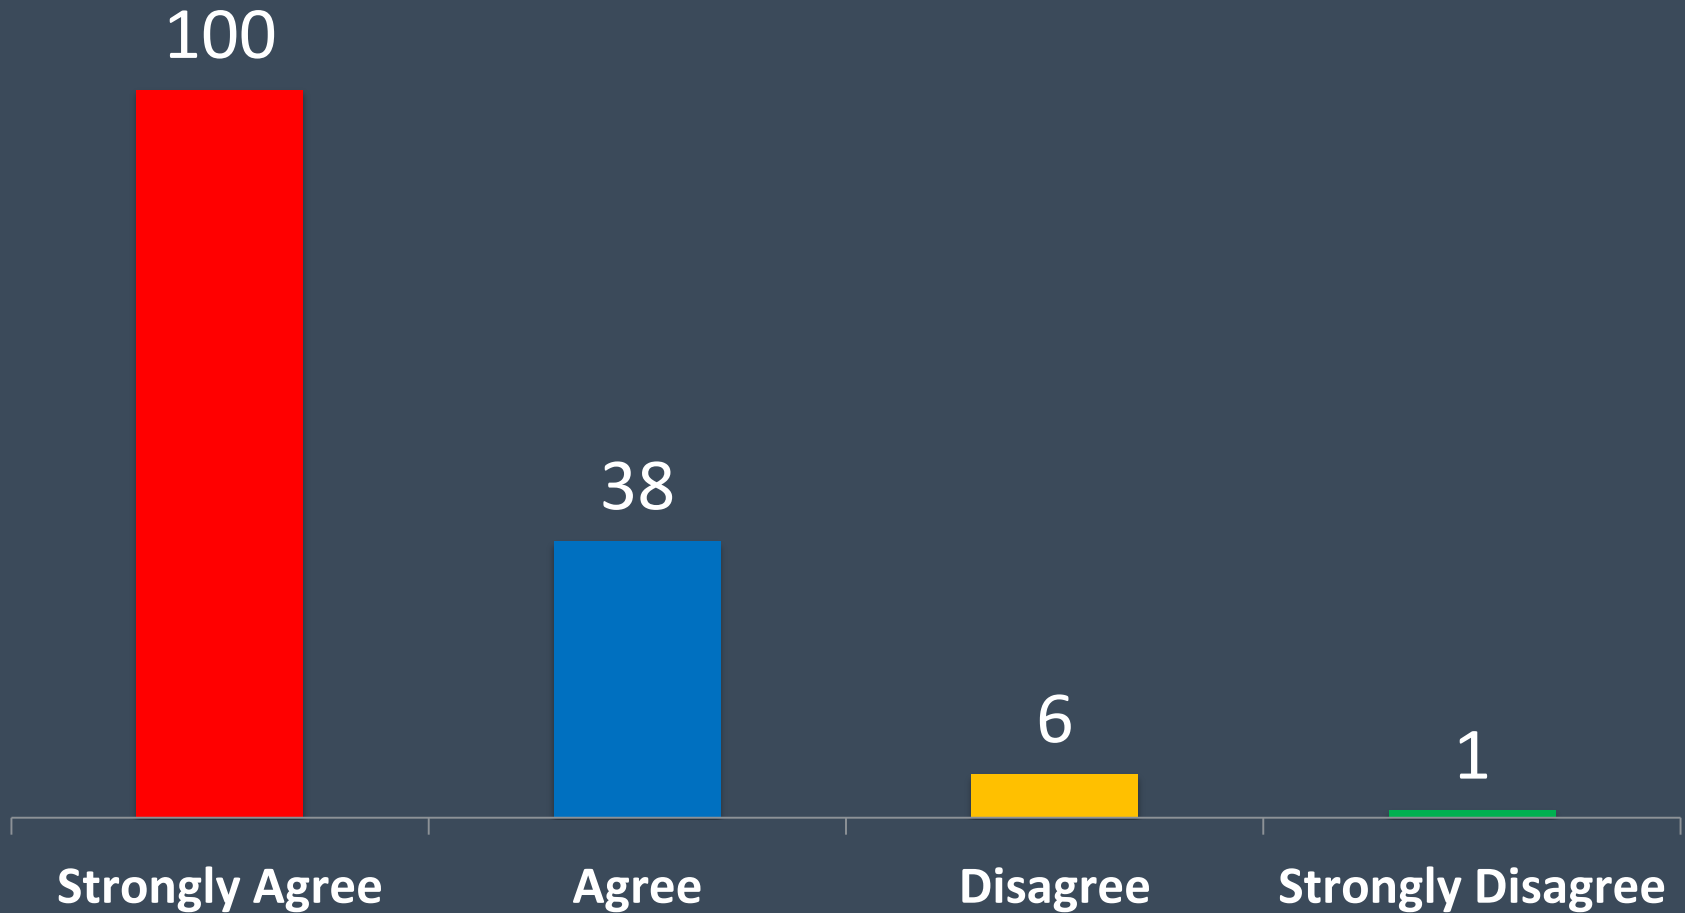

150 players

Average 9 per session (4-14)

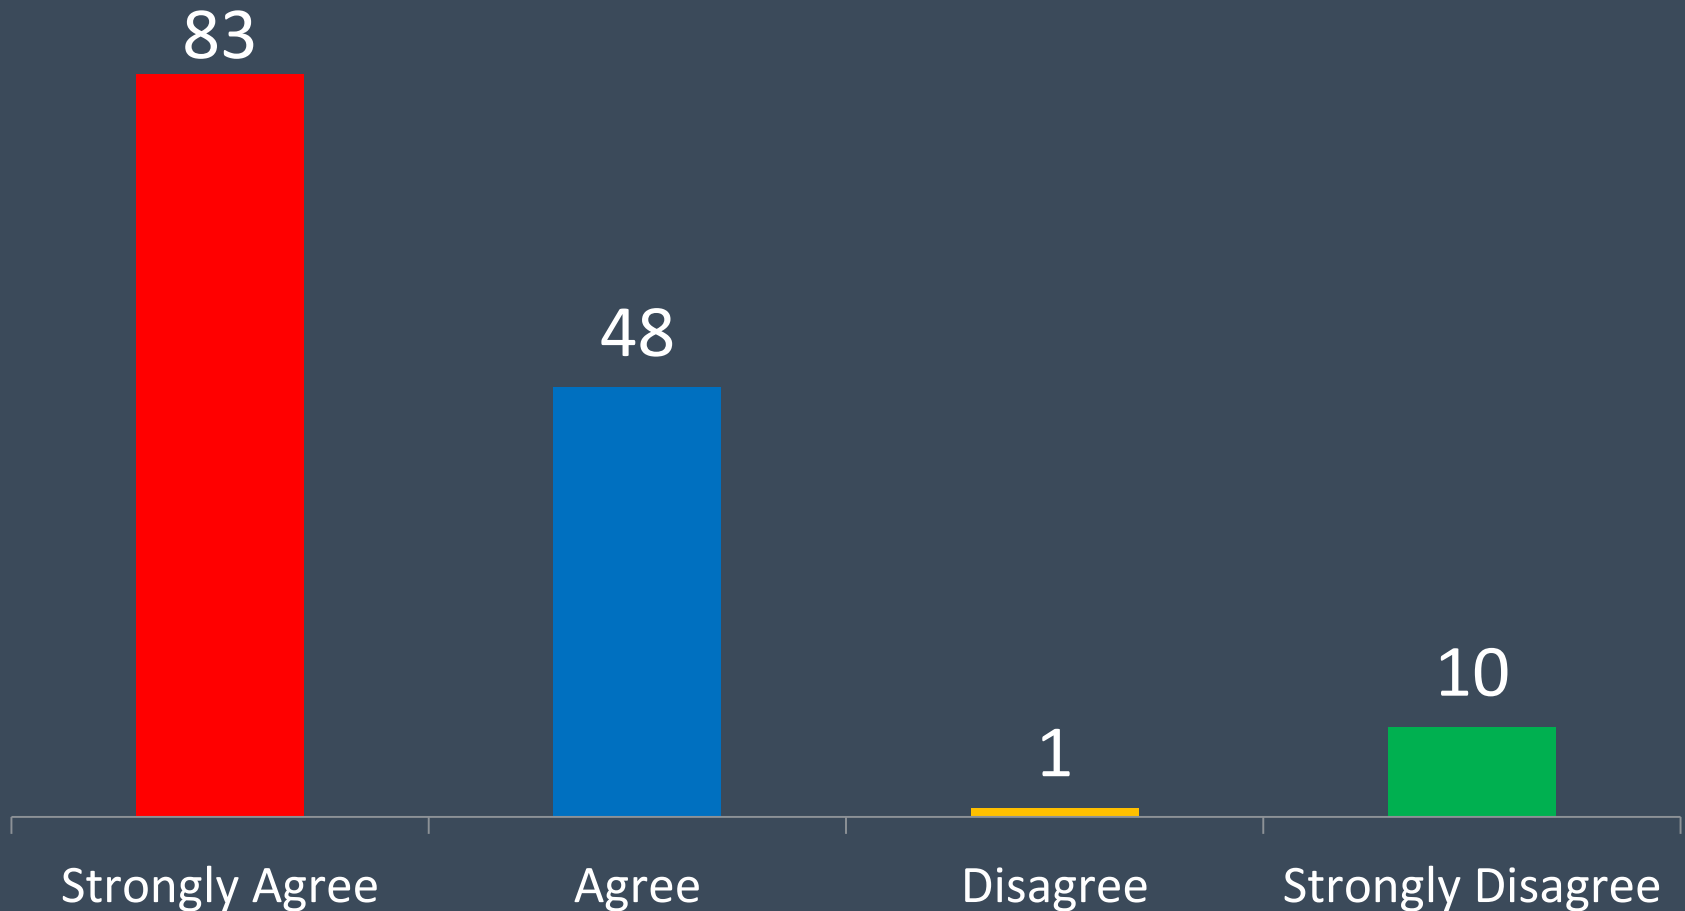

10 statements

4 clinical scenarios

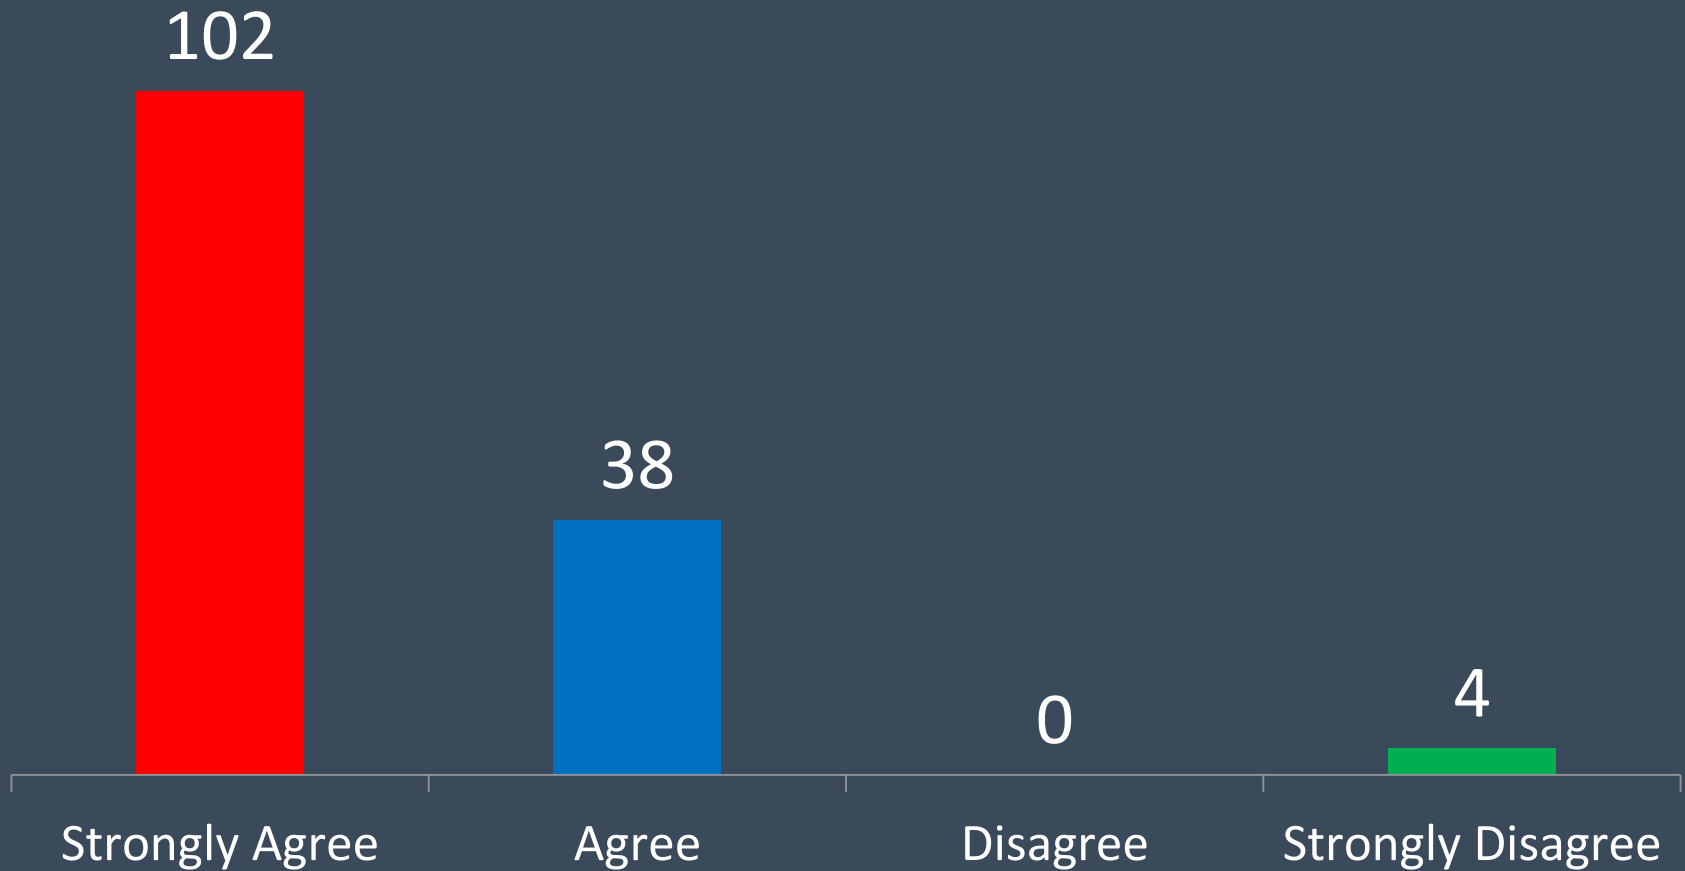

I felt the learning environment was safe

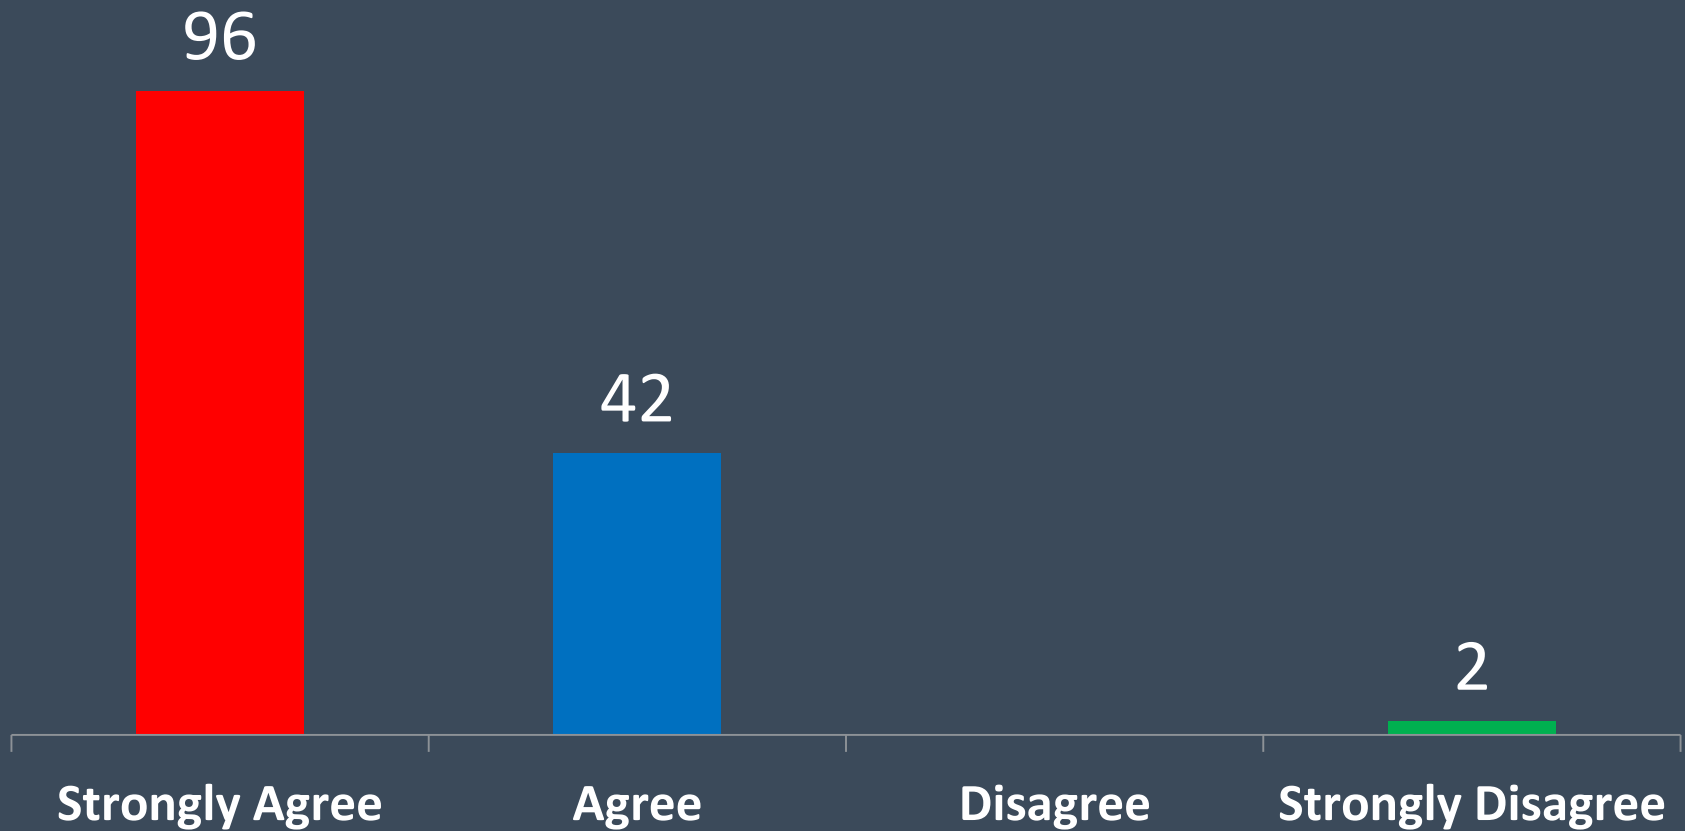

The simulation has better prepared me for dealing with this clinical situation in the future

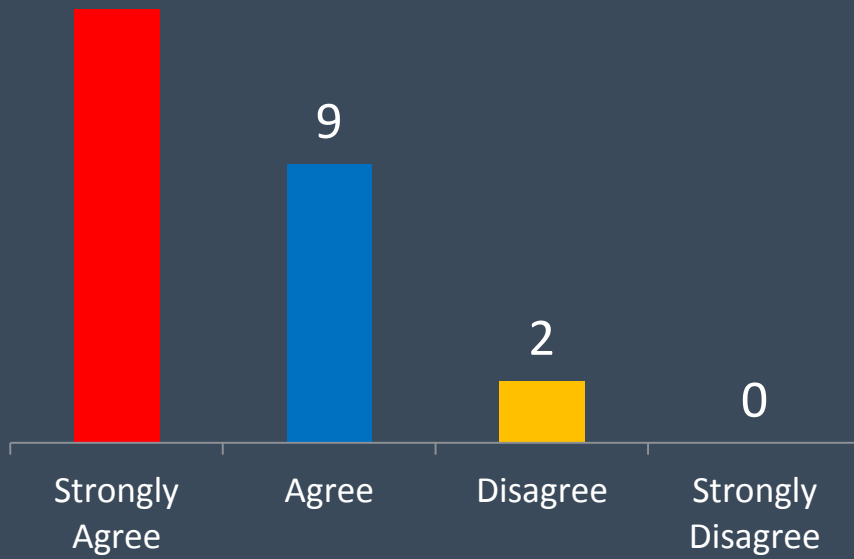

The debriefing discussion was constructive

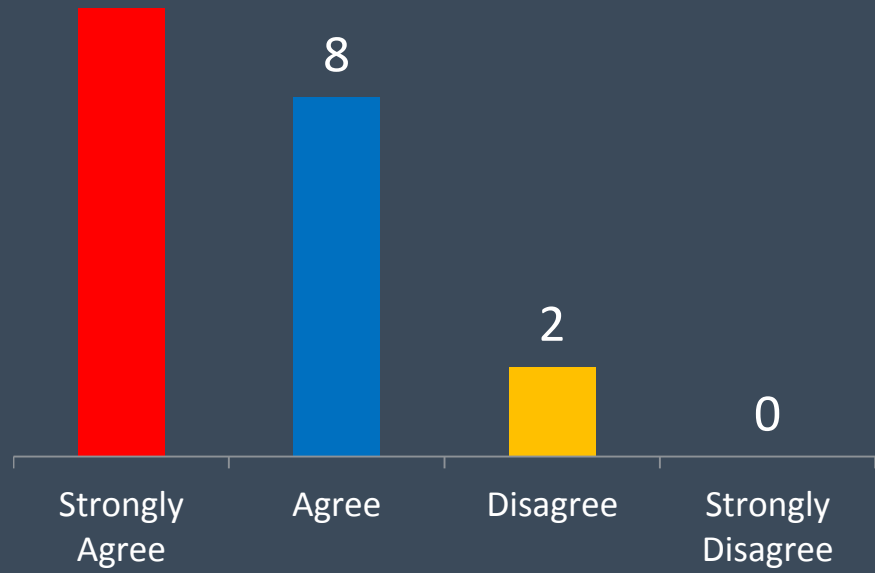

I would like to participate in future sessions
